- 51% of all businesses must be owned by Zimbabweans
- Caledonia implemented indigenisation in 2012
- IZ shareholders include community (10%) and workers (10%)

Inflation

- Hyper-inflation up to 2009 destroyed the economy
- Zim dollar abolished in 2009: functional currency is US\$

Gold Production

Revised Investment Plan to Address Falling Production

Quarterly Gold Production

- Quarterly production approx. 10,000 ounces per quarter compared to over 12,000 ounces per quarter in mid-2012
 - Lower production due to lower grades which have fallen from a peak of 4.5g/t to 3.4g/t in Q4 2014.
- Constraints on underground logistics on 22-Level prevent build-up in tonnes to compensate for lower grades
- Revised Plan announced in November 2014 will address both issues
 - Improved logistics allow increased production volumes
 - Access to higher grade, ores on deeper levels

Tonnes Milled, Grade and Recovery

Revised Investment Plan
